

Design Group LLC

FOR IMMEDIATE RELEASE: 15 August 2008

HA Design Group is awarded LA Bureau Remote Studio System for VOA – TV.

Washington, DC – 15 August 2008 -- HA Design Group LLC has been awarded the project for designing, project management, installation, and training for the LA Bureau Remote Studio Systems for the Voice of America Television (VOA TV). The system allows VOA-TV to have programming originate from LA back to the Washington facility. The Bureau facility provides program origination, as well as remotely produced and interactive segments. It includes a two camera system with playback and local/remote control systems.

The Voice of America (VOA) broadcasts on radio and television in 45 languages to an estimated audience of more than 115 million people each week. In addition, computer users logon to VOA's Internet site (www.VOAnews.com) for news and information.

VOA-TV produces programs in more than 20 languages, including news reports, feature magazines, and live call-in shows. TV broadcasts include original and acquired programs that reflect American life along with discussions on United States foreign and domestic policies. VOA's Internet provides continually updated news and information with photos, audio and video. RSS feeds and Podcasts are also available.

About HA Design Group LLC

HA Design Group is an engineering firm that is driven to give our customers the best in design, engineering, and workflow practices. To give them a design that looks at important technical, operational, and business considerations. We look at innovative approaches to solve today's problems that broadcasters face using the latest in technology. For further information, visit www.hadesign.net.
